#### THE 70TH ANNIVERSARY OF THE SIGNING OF THE U.N. CHARTER

### HON. NANCY PELOSI

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, June 25, 2015*

Ms. PELOSI. Mr. Speaker, I rise today to join in celebrating the 70th anniversary of the signing of the United Nations Charter and the establishment of one of the world's greatest organizations for peace and the advancement of humanity.

As the representative from San Francisco, this anniversary holds a particular pride for the people of my city and for me—for it was San Francisco that played host to the grand conference of delegates that wrote the U.N. Charter; and it was in the San Francisco War Memorial and Performing Arts Center, on June 26, 1945, that the Charter was signed.

On that day, President Harry S Truman came to the Plenary to offer his congratulations and his hopes for the future of the new United Nations: "You have created a great instrument for peace and security and human progress in the world," President Truman said. "The world must now use it."

Seven decades later, 193 member states have ratified the Charter. The world's greatest leaders and thinkers have been among the United Nations representatives. In 1946, United Nations General Assembly Delegate and Former First Lady Eleanor Roosevelt helped draft the Universal Declaration of

Human Rights, which builds on President Franklin D. Roosevelt's commitment to "freedom of speech, freedom of religion, freedom from fear, and freedom from want" for all people.

The United Nations has worked to end disease, hunger and poverty. It has sought to advance human rights, human dignity, and the opportunities of women and girls. It has focused the world's attention on the urgency of the climate crisis and the plight of refugees. It has stood against violence, terrorism and weapons of mass destruction. It has been a great bulwark for global peace.

The U.N. continues to confront the challenges of the 21st century by striving to not only meet the Millennium Development Goals but to expand them with the Sustainable Development Goals to be finalized this fall. It is my firm hope that the United States will be a strong and active participant in the effort to realize the Sustainable Development Goals to achieve progress for all the peoples of the United Nations.

In striving to fulfill the ideals and promise of its charter, the United Nations, related agencies, programs and staff have been awarded the Nobel Peace Prize eleven times.

In 1950, Ralph Bunche, an American, became the first person affiliated with the new organization to be awarded the Nobel Peace Prize. In his acceptance speech, he remarked, "I am but one of many cogs in the United Nations, the greatest peace organization ever dedicated to the salvation of mankind's future on earth."

This weekend, the city of San Francisco will once again welcome the U.N.'s highly respected Secretary-General, Ban Ki-moon, and other representatives of the United Nations. Our mayor Ed Lee and the people of San Francisco are thrilled and proud to once more play host to another milestone of U.N. history in our beautiful city.

Under the vital leadership of Secretary-General Ban Ki-moon, the United Nations remains a strong, resolute, unwavering voice for peace in a world burdened by war. May it continue to stand as a beacon of peace for the next 70 years and beyond.

H.R. 160

### HON. DAVID E. PRICE

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, June 25, 2015*

Mr. PRICE of North Carolina. Mr. Speaker, I voted against H.R. 160, not because I believe that the current tax on the device industry is perfect, but because I object to the Majority's fixation on passing permanent tax repeals without offsets.

As the representative from a part of our country that is known around the world for its research and innovation, I fully understand the importance of the device industry to the health and wellness of Americans, economic development, and our global competitiveness. Medical devices have the potential to save and improve the lives of Americans, and the companies that produce them are helping our economy recover by investing in new technology and providing high-paying, high-skilled jobs here in the United States.

Like other industries, device companies understand that the skyrocketing cost of health

care represents one of the greatest threats to families, small business owners, state and federal budgets, and the overall economy. In part, Congress enacted the Affordable Care Act to help reverse this trend, and AdvaMed, the trade association representing medical device manufacturers, has supported policies to expand access to their life-saving products.

The final law brought the original \$40 billion levy on device manufacturers down to a \$20 billion contribution through a 2.3%, rather than 4.6%, excise tax on medical devices. However, as the ten-year budget window has shifted, industry leaders report that they expect to pay more than originally predicted. We need to monitor this situation carefully and find a fair solution that accounts for the additional business the device industry may acquire as a result of the Affordable Care Act, while underscoring the need to keep the industry vibrant and innovative.

Unfortunately, that is not the discussion we are having today. House Republicans are bringing to the Floor a bill that would, yet again, provide for a permanent tax cut without an offset. When this bill is added to the other permanent tax cut bills brought to the Floor this year alone, they add up to more than \$610 billion in tax cuts without even a penny of an offset.

The point is not that tax reductions or expenditures without offsets are never justified. Rather, they need to be part of a coherent, comprehensive budget strategy.

This is not a debate about innovation and economic development as the Majority would like you to believe. This debate is about fiscal responsibility; it is about taking one tax provision and making it permanent without paying for it, without regard to implications for the rest of the budget.

At a time when the House is bringing its appropriations bills to the House Floor, it is clear that reckless tax cuts like these have decimated our nation's ability to make the key investments a great country must make. Earlier this month, the House considered the 2016 Transportation-Housing and Urban Development appropriations bill. As the Ranking Member of the Subcommittee charged with drafting the bill, I can tell you that it, like the other appropriations bills this body will consider, woefully underinvests in our nation due to the Majority's wrong-headed refusal to adopt a comprehensive approach to balance our budget.

Should the House Republicans choose to debate and refine the Affordable Care Act's medical device excise tax, I stand ready to work with them. Until then, I will have to continue my record of voting against the unpaid-for tax cuts the Republican Majority is bringing to the Floor in the 114th Congress.

#### RED FOXES COMMUNITY COLLEGE INNOVATION CHALLENGE

### HON. ED PERLMUTTER

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

*Thursday, June 25, 2015*

Mr. PERLMUTTER. Mr. Speaker, I rise today to recognize and congratulate the Red Foxes from Red Rocks Community College on placing first in the National Science Foundation's Community College Innovation Challenge. This program serves as an innovative

way for community college students to partner with community industries to create pioneering STEM-based solutions for real world issues. The Community College Innovation Challenge is an important example of encouraging STEM education and research for our nation's students and future leaders. I congratulate all of the competition's participants for their work on a variety of important projects.

The Red Foxes placed first in the challenge with their Mobile Medical Disaster Relief Unit. Made out of 3D printed parts, a motor, Radio Frequency ID (RFID) tracker and Raspberry Pi computer, this device enhances the ability for medical teams to distribute and track needed medicine when responding to disasters. With its implementation, emergency responders could respond to high-stress, time-sensitive medical situations more quickly, more safely, and more effectively. The Red Foxes identified this problem and began working as a team to develop an innovative solution leaning on the skills of each of their team members.

I congratulate the Red Fox Team of Nathan Tiedt, Scotty Hall, Kaia Chapman, Keya Lea Horiuchi, and their faculty advisory Helena Martellaro for their first place finish. I applaud the Red Foxes for their dedication to this groundbreaking project and their leadership and commitment to STEM education blazing a path for our country's future leaders and innovators. I am proud of the work Red Rocks Community College does every day and I look forward to seeing what the school and these students accomplish in the years to come.

#### HONORING THOMAS GLENDON STAFFORD

### HON. JASON SMITH

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 2015

Mr. SMITH of Missouri. Mr. Speaker, I rise today to honor lifelong Missourian Thomas Glendon Stafford from Cape Girardeau on his 100th birthday.

Mr. Stafford was born on June 28, 1915 in Zadock, Missouri. After sixth grade, Mr. Stafford went to work for his father who was a farmer. He lived on the family farm until he met his wife Bernice at her church in Vanduser, Missouri. He asked for her hand in marriage at the age of 19. In 1942, the couple moved to Cape Girardeau where he has made a home for 68 years and began working for Commercial Transport as a truck driver.

On March 14, 1945, Mr. Stafford was drafted into the U.S. Army during World War II. After 19 weeks of training at Fort Hood, he was sent across the Pacific to the Philippines before eventually being transferred to Tokyo, Japan. He spent a year in Tokyo at the personnel office driving soldiers. Mr. Stafford was honorably discharged on May 18, 1946, and was awarded the Asiatic Pacific Theater Ribbon, the World War II Victory Medal, and a Good Conduct Medal for his dedication and service.

After his daughters left home, he and his wife lived a quiet life until Bernice passed away at the age of 91 on November 6th, 2004. He has seven grandchildren, fourteen great-grandchildren, and three great-great-grandchildren and now lives at the Missouri Veterans Home in Cape Girardeau.

For his service to our nation, and all that he has accomplished over the last century, it is my pleasure to honor Mr. Stafford before the United States House of Representatives on his 100th birthday.
